The 16th September, 1947. }

JIVRAJ N. MEHTA,  
Director General of Health Services.

### NATIONAL SAVINGS CERTIFICATES

The best method of investing savings. Absolute security, excellent interest and repayment at any time at ho option, after 18 months (one year, in the case of Rs. 5 Certificates). Income-tax-free. In 12 years, every Rs. Certificate becomes Rs. 15 which is equivalent to 3½% compound interest, income-tax-free.

National Savings Certificates are obtainable in denominations of Rs. 5, Rs. 10, Rs. 50, Rs. 100, Rs. 500, Rs. 1, and Rs. 5,000. Full particulars can be obtained from Authorised Agents appointed by Government, from any Post O doing Savings Bank business or from any National Savings Bureau, or, in case of difficulty, from the

NATIONAL SAVINGS COMMISSIONER,  
National Savings Central Bureau,  
Finance Department, Government of I  
Cotton Castle, S

## REMARKS

During the week ending the 16th August 1947 in India (excluding East Punjab, Bihar, West Bengal and Assam) and in the Indian States shown in this statement, the total number of deaths recorded in 132 towns having a population of 30,000 and over was 7,388. The mid-year estimated population of these towns was 16,000,854 and the death rate was 24.0 per thousand of the population. Births in the same towns numbered 10,219 giving a birth rate of 33.2 per thousand of the population. In India alone the corresponding birth and death rates were 33.7 and 24.4 per thousand of the population respectively.

(A) *India*.—In India the following towns returned a high death rate of 50 or over per thousand of the population: Hardwar Union (68.4); Benares (64.6); Ycotmal (60.5); Budaun (58.2); Burhanpur (56.1) and Hinganghat (51.2).

The high death rates in all the above towns were mainly due to deaths from fevers. There were a fairly large number of deaths from dysentery and diarrhoea in Benares and

Burhanpur and Hinganghat. In Benares a considerable number of deaths were recorded under cholera.

In 121 towns in India there were 82 deaths from cholera, 8 deaths from smallpox and only one death from plague. Of the deaths from cholera Jubbulpore recorded 20; Benares 17; Cawnpore 12; Broach 10; Parle Andheri 4; Lucknow Mirzapur-Bindhachal and Balrampur 3 each; Jaunpur Hardwar Union and Rajahmundry 2 each; Dehra Dun, Nagpur Civil Station, Hinganghat and Bandra one each. Of the deaths from smallpox Bombay recorded 2; Delhi city, Agra Etawah, Sambhal, Nagpur Civil Station and Bilaspur one each. The death from plague was recorded in Coimbatore.

(B) *Indian States*.—Amongst the Indian States shown in this statement there was no town which had a high death rate of 50 or over per thousand of the population.

In 11 towns of the Indian States there were 2 deaths from smallpox of which Patiala and Jaipur city recorded one each. Cholera and Plague were absent during the week.

JIVRAJ N. MEHTA
